Our 80th Year, 1939-2019

Happy New Year!

We just said good-bye to the last decade and said hello to the new one. While Spring is often thought to be a time of renewal. I think the same can be said when we turn the page on the calendar and are presented with a new year. We take time to reflect. We take time to look ahead. And we take time to resolve how we can make our lives – and the lives of those around us – better.

As we begin 2020, we also think about those we have lost the past year, and the possibilities of how new and exciting changes in the coming year will enrich our lives. It can be a year full of promise. We just need to let it unfold and embrace the changes that will come our way.

As a club, we celebrated very well this past year. Whether it was our 80th Anniversary Luncheon, our 80th Kirchweihfest or our annual Christmas Party, we had great opportunities to get together with friends and family to appreciate our heritage and strengthen those bonds. We also welcomed some new members in 2019. Some “long lost” Lieblingers have come back to join the club. We also have some “next generation” Lieblingers who have become active members. In speaking with each of them, there is a common feeling among them, shared by us all. It is the experience of making that connection with our past - a connection with our heritage and that of our parents, grandparents and great-grandparents - to show respect, recognition and honor for the traditions they shared with us.

As we embark on another year as the Lieblinger Vergnügungs Verein of Chicago, I hope we can all continue to make this a strong club for everyone. Please join us at our monthly meetings and at our special events throughout the year. Happy New Year!
